TrapLoader 270 Retrofit

Proven best trap machine for 50 years by the ATA Executive Committee, the Winchester-Western Trap Machine (V-1524) has outperformed them all. Today, there are thousands of these “hand-set” machines around, and parts are readily available.

Now there’s an affordable alternative for converting these “hand-set” machines to automatic loading capability.

With a 15” throwing arm compared to 11” on many other machines, you’ll get the best target spin and most consistent target flight you’ve ever seen. You’ll shoot better and have a lot more fun with TrapLoader!
